Western Region PHTC Mission

Develop, provide and monitor need-based trainings for current and future community health workers to strengthen their public health competencies.

Primary audience:
Governmental public health staff, specifically in rural areas

Secondary audience:
Staff from other parts of the public health system

Collaborate with region’s AHECs, SORH, FQHCs and small rural hospitals
Services AzPHTC Can Provide

- Customization and implementation of the online competency and training needs assessment
- Competency-based training development and dissemination (online, in-person, webinar)
- Workshops at county HDs from existing list of trainings
- AZ TRAIN as a tool to provide online CE programs
- DecisionSim cases – interactive, case-based learning
- Graduate MPH students for internship projects
