TMC’s Strategic Decisions 2015

- TMC will remain an independent, non-profit, community-focused organization serving Tucson & Southern Arizona

- TMC will develop mutually beneficial, enduring relationships with;
  - Other independent, non-profit healthcare organizations of compatible cultures locally, regionally and statewide
  - Highest quality organizations which provide advanced and highly specialized adult and pediatric services not offered by TMC
COMPASSION
We have heart
We respect diversity and individuality
We honor body, mind, and spirit

DEDICATION
We work hard for our patients and each other
We are committed to professionalism and excellence
We listen, we learn, we grow

COMMUNITY
We are welcoming and friendly
We practice kindness in all our relationships
We reach out as teachers and as leaders

INTEGRITY
We tell the truth
We are responsible in how we use our resources
We have the courage to uphold our values

Our Commitment: We will listen to you, we will care for you and we will do nothing to you without you.
Advanced Specialty Partnerships

*Leverage Excellence in Arizona Healthcare*

- Become a member of Mayo Clinic Care Network
- Develop a relationship with Phoenix Children’s Hospital to provide Pediatric Hospitalist and PICU services at TMC and highly specialized referral services at Phoenix Children’s Hospital
- Mayo & Phoenix Children’s work very collaborative together to provide excellent pediatric care
Southern Arizona Hospital Alliance

-Regional Partnership-

• Develop the Southern Arizona Hospital Alliance, a 501(c)3 alliance of 5 independent southern Arizona hospitals

  - Benson Hospital, Benson
  - Copper Queen Community Hospital, Bisbee
  - Mt. Graham Regional Medical Center, Safford
  - Northern Cochise Community Hospital, Willcox
  - Tucson Medical Center, Tucson
Southern Arizona Hospital Alliance

- Alliance of five independent, non-profit Southern Arizona community hospitals, with the purpose of supporting its members in their shared objectives of
  - Improving clinical care and coordination
  - Providing seamless transfer of patients and patient information between hospitals
  - Increasing patient access to tertiary and quaternary care
  - Increasing patient access to specialty care in their communities
  - Improving operational efficiency for member hospitals
  - Improving quality
