

## REGISTRATION NOW OPEN

44TH ANNUAL ARIZONA RURAL HEALTH CONFERENCE

# Pre-Conference Workshop: 'Understanding and Leveraging the Economic Impact of Rural Health Care'

**Monday, July 24, 2017 | 8:30 – 3:30**

High Country Conference Center, Flagstaff, Arizona

The pre-conference workshop is an interactive learning environment designed for leaders from rural health care facilities. Participants will gain a better understanding of the economic impact of the health care sector, including specific tools and methods for assessment of new or expanded health care services in rural hospitals, clinics, community health centers, tribal health, and EMS systems in Arizona and surrounding communities.

The National Center for Rural Health Works (or RHW) develops tools and templates, and provides training and technical assistance in the following areas:

- Economic Impact
- Rural Health Needs Analysis
- Emergency Medical Services (EMS) Systems Development

Use of these tools and templates makes the case for the importance of local healthcare services to engage community leaders in making informed decisions and developing and implementing a plan of action.

**Space is limited to 30 participants. The registration fee is \$60.00 and includes lunch.**
