

AzMAT Mentors Program

Our community is experiencing a high number of fatal overdoses and access to medication assisted treatment (MAT) is limited. The Arizona Department of Health Services and the Arizona Center for Rural Health created the **AzMAT Mentors Program** to offer support to DATA-waived MAT providers. Through this collaboration, experienced MAT providers will be compensated to assist less experienced MAT providers to overcome the barriers that limit MAT services.

Experienced provider requirements:

- Be a licensed or DATA-waived MAT provider in Arizona with experience delivering the continuum of MAT services for at least one year or have treated at least 20 patients,
- Participate in AzMAT Mentors program training,
- Collaborate with 1-2 new MAT providers through one-to-one consultation,
- Follow Arizona Center for Rural Health AzMAT Mentors Program implementation protocols,
- Submit documentation for reimbursement, and
- Participate for an estimate of 20-37 hours.

► **This is a paid opportunity for experienced MAT providers.**

If you are interested, please take a couple of minutes to complete the [interest form](#) and we will be in contact soon.
