

TRIBAL HEALTH FACILITIES IN ARIZONA

Design: Ann Garn (Updated 9/30/25)

About This Map

This map is designed to support the policy and programmatic efforts of Arizona (AZ) Tribal Nations and to improve health care access across rural and underserved Tribal communities. It provides a visual representation of key Tribal health facilities and other facilities (CAHs, FQHCs, or RHCs) but is not a comprehensive inventory. Certain types of facilities—such as satellite or mobile clinics, school-based health services, behavioral health-only clinics, and dental-only clinics—are not included. The facilities represented on this map include:

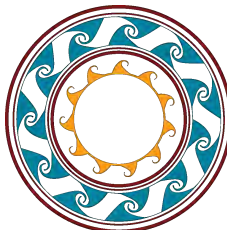

- Indian Health Service (IHS) hospitals and clinics
- Tribally operated 638 (Tribal-638) hospitals and clinics
- Urban Indian Health Programs (UIHP)

For details on the mapping methodology and definitions of facility types included, please visit our website.

- CAH** Critical Access + IHS Hospital
- CAH 638** CAH + Tribal Operated (PL 638)
- Indian Health Services (IHS)**
- Tribal Operated (PL 638)**
- Urban Indian Health Centers**
- CAH Affiliated Rural Health Clinics**
- Federally Qualified Health Centers in rural areas**
- *** N Apache County Special Healthcare District

TRIBAL HEALTH FACILITIES IN ARIZONA

DEFINITIONS

Indian Health Service (IHS): An agency within the Department of Health and Human Services responsible for providing federal health services to American Indians and Alaska Natives.¹

Tribally operated 638: The Indian Self Determination and Education Assistance Act, also known as P.L. 93-638, authorizes Tribes and Tribal Organizations to contract for the administration and operation of certain Federal programs, including health related programs, which provide services to American Indian Alaska Natives.²

Urban Indian Health Programs (UIHP): A program operated by Urban Indian Organizations (UIO) that are funded and contracted by Indian Health Service (IHS) to provide direct health care, referral and outreach services to American Indian Alaska Natives (AIAN) living in urban area.³

Dual Designations: A Tribal 638 clinic dually designated as a Federally Qualified Health Center (FQHC) by AHCCCS can, upon request, provide care beyond the clinic's "four walls" through agreements with non-Tribal providers and bill for those services.
