

**AHCCCS Update**

**August 3, 2012**

Our first care is your health care  
Arizona Health Care Cost Containment System

"Reaching across Arizona to provide comprehensive quality health care for those in need"

**Topics to Cover**

- The Executive's Guiding Principles
- Process and Timeline for Deliberation
- Health Insurance Exchange
- AHCCCS Coverage Solutions
- Opportunities for Operational Efficiencies

Our first care is your health care  
Arizona Health Care Cost Containment System

2

"Reaching across Arizona to provide comprehensive quality health care for those in need"

**Arizona Health Care Reform  
Guiding Principles**

- Leverage the competitive, private insurance market to promote individual choice and reduce dependency on public entitlements, thereby maximizing coverage and strengthening Arizona's health care system.
- Recognize that, through Proposition 204, Arizona voters mandated coverage (within available resources) of individuals with incomes below 100% FPL.
- Identify enhanced federal match rate opportunities for the restoration of Proposition 204 as a sustainable component of the coverage solution based upon the principles of flexibility and state/federal partnership set forth in the AHCCCS Waiver.

3

"Reaching across Arizona to provide comprehensive quality health care for those in need"

**Arizona Health Care Reform  
Guiding Principles**

- Implement payment reform strategies that lower costs by promoting quality of care and by maximizing personal responsibility through innovative cost-sharing designs.
- Increase efficiency and responsiveness of Arizona's public health system by examining opportunities to streamline and consolidate duplicative agency functions related to the purchase and oversight of health care services.
- Work with health care, business and community stakeholders to build a high quality health care infrastructure that is patient-centered, sustainable, accessible and affordable.

4

"Reaching across Arizona to provide comprehensive quality health care for those in need"

**Arizona Health Care Reform  
Guiding Principles**

- Keep health care decision making as local as possible.
- Acknowledge the importance of the health care industry to the state's overall economy and the impact of a stable health care system on Arizona's ability to attract and retain high quality jobs, including those in the medical profession.

5

"Reaching across Arizona to provide comprehensive quality health care for those in need"

**Process and Timeline for Deliberations**

- Ongoing: Submit clarifying questions to Federal Government and await further guidance on Federal interpretation of Supreme Court ruling for Medicaid.
- August 2012: Update fiscal estimates on State options.
- July – November 2012: Engage stakeholders and obtain public input.
- November – December 2012: Incorporate final decisions into normal policy-making process.

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## Health Insurance Exchange

- Overview
- Planning to Date
- Essential Benefits Discussion
- Funding a Self-Sustaining Exchange
- State-based vs. Federally-facilitated Exchange: Pros and Cons

## Health Insurance Exchange: Principles for an Arizona Exchange

- Build on Arizona's Strong Health Insurance Market.
- Support Market Facilitator Approach.
- Maximize Choice and Competition.
- Impose Minimal Regulations and Reporting Requirements.

## Exchange Timeframes

- September 2012: Essential Benefits decision
- **November 2012: Submit State's Intent regarding Exchange to HHS Secretary**
- January 2013: HHS Secretary Certifies Exchange
- July 2013: Systems Readiness Testing
- October 2013: Exchange enrollment begins
- January 2014: Exchange coverage begins
- January 2015: Exchange must be self-sustaining through user fees, assessments or other funding sources

## Health Insurance Exchange: Essential Health Benefits

- ACA requires states to establish the Essential Health Benefits (EHB) that must be included in all new individual and small group policies sold within or outside of the Exchange.
- EHB must be based on a benchmark plan selected by the State by September 30, 2012 and must satisfy the following requirements:
  - Cover services within each of the 10 statutory service categories;
  - Chosen from the 10 benchmark plan options;
  - Supplemented from the federally-defined options if the benchmark plan does not provide coverage for all of the EHB categories.

## Health Insurance Exchange: 10 EHB Statutory Service Categories

- Hospitalization
- Emergency Services
- Ambulatory Services
- Maternity and Newborn Care
- Mental Health and Substance Use Disorder Services, including Behavioral Health Treatment
- Prescription Drugs
- Rehabilitative and Habilitative Services and Devices
- Laboratory Services
- Preventative and wellness services and chronic disease management
- Pediatric services, including oral and vision care

## Health Insurance Exchange: Funding

- Federal grants fund all planning, design and start-up costs through December 31, 2014.
- Arizona received a one-year planning grant for \$1 million on September 30, 2010.
- Arizona received a one-year grant for \$29.8 million on November 28, 2011.

## Health Insurance Exchange: State vs. Federal

### State-based Exchange

Arizona decides:

- Number of insurers on Exchange
- AHCCCS eligibility
- How to fund Exchange
- Benefits, providers and plans offered on the Exchange

### Federally-facilitated Exchange

HHS decides:

- Which insurers are included in Exchange marketplace
- AHCCCS eligibility
- How Arizonans will pay for Exchange costs
- Benefits, providers and plans offered on the Exchange

## AHCCCS Coverage Solutions: Current AHCCCS Population

- 1.2 million AHCCCS members, including coverage for:
  - Disabled (ALTCS): 225% FPL; parental income is disregarded for children served in ALTCS.
  - Pregnant women: 150% FPL.
  - Infants age 0-1: 140% FPL.
  - Children ages 1-5: 133% FPL.
  - Children ages 6-18: 100% FPL.
  - Parents: 100% FPL.
  - Childless adults: 100% FPL. (Currently frozen)
  - KidsCare: 100% - 200% FPL. (Currently frozen)

## AHCCCS Coverage Solutions: Current Status of the AHCCCS Program

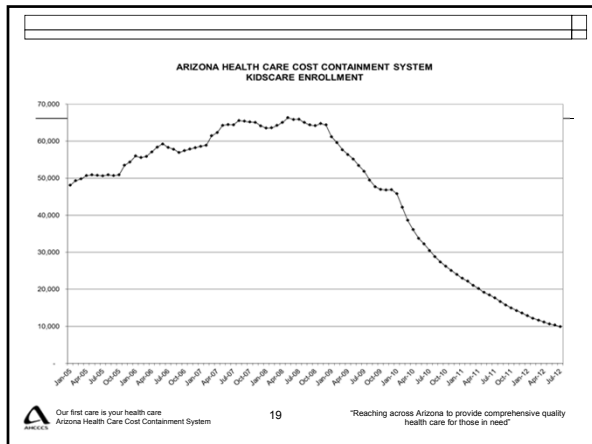

- Great Recession decreased State revenues by approximately 30% while AHCCCS enrollment increased by 30%.
- Reductions to State General Fund expenditures across the board were needed to address shortfalls.
- The AHCCCS program was reduced by over \$2 billion.
- Some of these measures included:
  - Enrollment freeze for KidsCare on January 2010.
  - Phase out of Spend Down program that began May 2011.
  - Enrollment freeze for Childless Adult population (covered between 0% to 100% FPL) on July 2011.

## Total AHCCCS Population

## Childless Adult Population

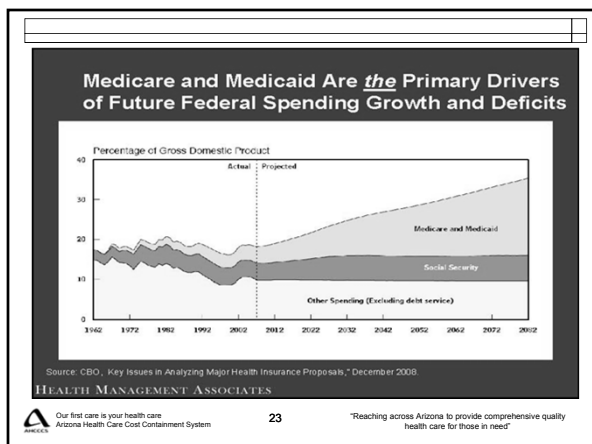

- ### AHCCCS Coverage Solutions: Current Status of the AHCCCS Program
- Prop. 204 mandates AHCCCS cover all Arizonans up to 100% FPL *within available resources*.
  - State Supreme Court approved freeze because Legislature determined additional resources were not available.
  - The childless adult enrollment freeze also necessitated a change to the AHCCCS Waiver, which provides federal authority to cover this population.
  - The current Waiver ends January 1, 2014; childless adults will lose their coverage without some further action.
  - The current childless adult population (0-100% FPL) does not have access to subsidies on the Exchange.
- Our first care is your health care  
Arizona Health Care Cost Containment System 20 "Reaching across Arizona to provide comprehensive quality health care for those in need"

- ### AHCCCS Coverage Solutions: Current Status of the AHCCCS Program
- Current Waiver supports creative solutions to mitigate AHCCCS reductions (end Jan. 2014):
    - Safety Net Care Pool using local dollars to cover uncompensated hospitals costs (\$332M program).
    - KidsCare II allowing coverage for 22,000 children using local dollars.
    - First-ever funding program to support uncompensated care costs for Indian Health Services and Tribally Operated facilities.
- Our first care is your health care  
Arizona Health Care Cost Containment System 21 "Reaching across Arizona to provide comprehensive quality health care for those in need"

- ### AHCCCS Coverage Solutions: Achieving Long-Term Sustainability
- Recent events demonstrate the challenges of achieving long-term sustainability of open-ended entitlement programs.
  - In their current form, Medicare and Medicaid programs are unsustainable at the federal level; reductions of some kind are inevitable.
- Our first care is your health care  
Arizona Health Care Cost Containment System 22 "Reaching across Arizona to provide comprehensive quality health care for those in need"

- ### AHCCCS Coverage Solutions: Achieving Long-Term Sustainability
- Although the AHCCCS program has achieved balance within its budget, concerns remain:
    - Prop. 100 temporary, one-cent sales tax expires July 1, 2013.
    - Proposed Quality Education & Jobs Initiative seeking to establish one-cent tax offers no help:
      - Directs funding for healthcare only to KidsCare.
      - Additional funding for KidsCare is not needed since federal government will cover 99% of KidsCare costs under ACA.
      - Offers no flexibility to support broader AHCCCS program.
    - State's budget was planned through Fiscal Year 2015, incorporating cost of full Medicaid expansion and resulting in \$400M deficit.
- Our first care is your health care  
Arizona Health Care Cost Containment System 24 "Reaching across Arizona to provide comprehensive quality health care for those in need"

## AHCCCS Coverage Solutions: Building on a Tradition of Flexibility, Partnership

- Flexibility, partnership are cornerstone of AHCCCS success, mainly through 1115 Waiver, which:
  - Created first statewide, mandatory Medicaid Managed Care program (1982);
  - Permitted Home and Community Based Services to allow elderly and individuals with disabilities to stay at home instead of being placed in institutions for their care (1989).
  - Allowed coverage for Childless Adults in response to Prop. 204 (2001);
  - Supported personal responsibility through mandatory copays for Childless Adults (2003); and
  - Provides State ability to manage program during fiscal crisis.

25

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## AHCCCS Coverage Solutions: Requires Partnership with Federal Government

- Additional guidance needed on what populations are optional:
  - Confirm Children up to 138% FPL mandatory.
  - What about parents?
- Can Arizona obtain enhanced match for restoring childless adult coverage to 100% FPL, but not 133%?
- What type of flexibility will states have via 1115 waiver process?
- How will November elections impact policy direction?

Our first care is your health care  
Arizona Health Care Cost Containment System

26

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## Policy Opportunities and Considerations

- Opportunities for private, commercial coverage of:
  - Non-AHCCCS eligible individuals with Serious Mental Illness; impact on the State's role.
  - KidsCare eligible children.
- How to address state cost of Childless Adult population, which is not 100% federally funded?
- Need to assess impact of federal reductions to DSH.
- What is impact of converting FPL to new MAGI; what is actual FPL and what are associated costs?

Our first care is your health care  
Arizona Health Care Cost Containment System

27

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## Opportunities for Operational Efficiencies

- Currently, multiple agencies across state government are performing the same function of purchasing healthcare services for the State.
- Modernizing Arizona's healthcare infrastructure presents opportunities to consolidate some of these functions.
- Streamlining government functions supports best practices, leverages existing capacity and achieves greater efficiencies.
- The State could better focus on reform initiatives to align incentives in healthcare, pay for quality of care and not quantity of services, modernize reimbursement strategies (e.g., use of APR-DRGs), and pursue innovation grants.

Arizona Health Care Cost Containment System

28

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## Triple Crown and Integration

### Procurement Opportunities (Triple Crown)

- Maricopa RBHA - \$5 billion plus
- Statewide Acute - \$40 billion plus
- CRS - \$500 million plus
- Integration – Care Management for frail members
- Duals Members (Medicare and Medicaid)
- CRS members
- Members with SMI
- Manage/Leverage Unprecedented Competition

Our first care is your health care  
Arizona Health Care Cost Containment System

29

"Reaching across Arizona to provide comprehensive quality health care for those in need"

## Dual Members Demonstration

Unprecedented historical opportunity to improve care

April – Presentation to CMS and OMB

May - Meetings with

1. CMS Administration
2. Congressional Staff
3. MEDPAC/MACPAC

June – Hosted California Staff

July – Congressional Testimony

Concerns expressed include (non CMS)

Speed – Size – Health Plan Capacity – Unresolved Issues – Medicare Principles

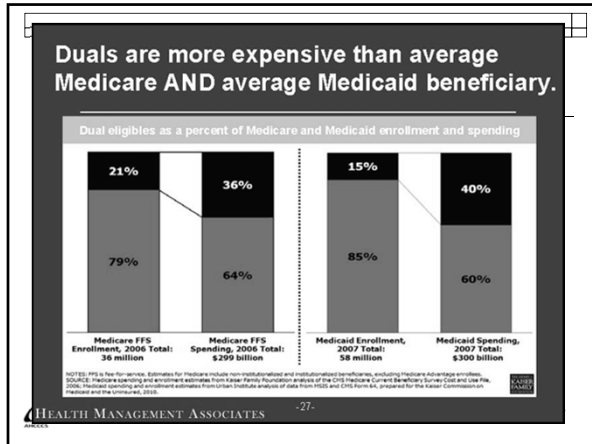

Current model is fragmented, unsustainable and results in lack of accountability and sub-optimum outcomes
