# Long-Covid ECHO

Get expert consultation to better care for patients with Long-COVID Syndrome using evidence-based practices

Supported by the Maricopa County Department of Public Health and the Centers for Disease Control and Prevention, Arizona State University (ASU) is launching a Long-Covid ECHO program in April 2023. **Project ECHO sessions provide a safe, collaborative, 1-hour case-based learning and peer mentoring experience for frontline clinicians.** Sessions will take place every other Thursday (noon – 1pm) and will be led by an expert with clinical expertise on the selected topic. We invite primary care providers across Maricopa County to **join this free, interactive learning network** to collaboratively advance improvements in the treatment of patients suffering from Long COVID syndrome. To learn more please visit our website at: <https://chs.asu.edu/project-echo>.
