People in Arizona communities are becoming more aware of their health insurance options through Project SHARE (Students Helping Arizona Register Everyone).

**WHAT IS SHARE?**

Project SHARE (Students Helping Arizona Register Everyone) is a student group working under the University of Arizona Center for Rural Health. Project SHARE trains UA Health Sciences students from the Colleges of Medicine, Nursing, Public Health, and Pharmacy as Certified Assisters to improve the students’ health insurance literacy and assist with health insurance education and enrollment efforts. Depending on their field of study, SHARE provides students the opportunity to 1) earn community service hours, CUP/CHIP hours, and 2) improve health insurance literacy among the students themselves.

**GOALS:**

1. Train health professions students as Certified Assisters to better equip them to answer health insurance coverage related questions when out in the community and within their personal and professional networks.
2. Address consumers’ ability to and comfort with navigating health insurance coverage.

**OUTPUTS: 2015 TO 2019**

- 90 students trained as Certified Assisters
