The New Mexico Primary Care Training Consortium is a 501 c3 not-for-profit organization based in Silver City, New Mexico.

- Its Mission is to improve the quality of essential health services by supporting existing and developing new training opportunities to increase the primary care workforce in New Mexico.

- Its Vision is for New Mexico to be an innovative leader in training family medicine physicians and other primary care providers working with the most underserved populations in high quality, integrated primary care health systems.
