Compliance and Beyond

- IRS 501(r)
 - CHNA & Implementation Strategy
 - Financial Assistance Policy
 - Limit charges for uninsured
 - Determine patient eligibility for financial assistance
- Think Collaboration
- Unexplored Opportunity

Methodology

Primary Data Collection

- Interviews and focus groups with state, local, tribal and regional authorities, community members and health providers
- Hospital discharge data
- Community health surveys

Secondary Data Collection

- Demographic data (e.g. Census data)
- Community Health Assessments
- County rankings

Review Progress made since the Last CHNA

- Model improvements and declines in health outcomes
- Identify gaps in care
- Identify community assets

Identify Key Health Issues

- Require input from a Community Advisory Board
- Analyze and synthesize primary and secondary data

Develop an Implementation Strategy

- Prioritize key health issues
- Develop achievable goals and objectives
- Implement evidence based programming

Implementation Strategy
